

SPECIAL FEATURE

INFINITE POSSIBILITIES WITH MARBLE & NATURAL STONES

Rediscover infinite ideas and possibilities with marble and natural stones at MCI's World Class Experience Centre

The conventional format of showcasing marble slabs in rows at stockyards and galleries does little justice to its unparalleled aesthetics or to the infinite design possibilities it offers. The Marble Centre International (MCI) Experience Centre in Bangalore is a 25,000 sq. ft. lifestyle display that addresses a core industry challenge of visualizing the final application of natural stone in a complete interior context.

The Experience Centre, a first-of-its-kind destination in India for fully imported natural stones, is conceptualized with a unique décor-first approach that offers a fresh perspective on premium lifestyle solutions through the language of stone.

It moves beyond the banality of traditional stone displays and demystifies the luxury material by providing visitors with a hands-on look at how marble and other natural stones can be tastefully incorporated into every aspect of contemporary décor and design.

Through 10 ultra-luxury lifestyle zones and 81 unique applications, the space demonstrates how natural stone can help create stunning experiences across floors, walls, countertops, centerpieces, highlighters, accents, and accessories.

- **The living room zone** highlights the adaptability of natural stone through a beautiful combination of Crema Jasper and Golden Macabus flooring.

MCI Experience Centre invites visitors to reimagine the possibilities of natural stone and create their own personalized sanctuary with MCI's globally sourced, premium materials.

- **The bathroom zone**, wrapped in mystical Grigio Alps Onyx, features a sculptural Statuario marble bathtub as its focal point, complemented by backlit Saffron Onyx panels that bathe the space in a warm, golden glow.
- **The bedroom** offers a bold statement with a perfectly book-matched Azuro Gris marble headboard, an artistic centerpiece whose natural tones are beautifully softened and enriched by plush carpets and fine fabrics imported

from Hong Kong.

- **The dining area** dazzles with bold Black Marquina feature walls set against Crema Ultimo floors that create a striking yin-yang contrast.
- **In the lounge**, Titanium Black marble wraps the TV unit, while Statuario marble lends a timeless finish to the flooring.
- **In the bar area**, the Grigio Bronze Armani marble counter exudes a rich, chocolate-toned warmth that harmonizes beautifully with the space's inviting palette.

These curated lifestyle experience zones offer a sensorial journey where visitors don't simply leave with a stone in mind; they leave inspired by the vision of a complete lifestyle.
